*"You're going to preposition me - here, in the classroom?" Elizabeth Hernandez*

CAROL SHEPPARD

The English Department is an intrinsic part of the school, as English is a mandatory subject. The English Department's emphasis has shifted over the past few years. Introduction and propagation of elective English courses was the main thrust of the department in 1977 - 1978. Budgetary limitations, however have caused several of these electives to be cancelled.

Teaching the basics of the language, always an integral part of the English program, has been given a new emphasis with the introduction of the Language Arts Scope and Sequence charts which provide the students with a sequential approach to language study from first grade to the senior year.
