

SPECIAL, INDUSTRIAL & CAREER ED.

The Career and Industrial Education Department offers three major course areas: the first area consists of two training programs, *Cooperative Industrial Education* and *Cooperative Health Occupations*. Students enrolled in either of these programs are trained while working. A second area is Industrial Arts. The courses offered in this area are directed to career and hobby interests of students and often provide him with useful information. The Career area consists of classroom courses oriented toward career planning. Guest speakers are often scheduled to enrich student understanding.
