# BUSINESS EDUCATION

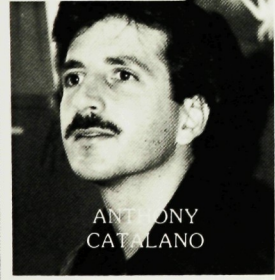

The Business Education Department of Scotch Plains-Fanwood High School promotes a diverse curriculum. The department offers twenty-two different subjects relating to five categories: clerical, accounting, secretarial, business, and distributive education. There are also two work programs, including Cooperative Education and Distributive Education in which students work while also attending school. Two prominent clubs related with this department are D.E.C.A. and F.B.I.A. These two clubs are supported by merchants as well as by the general society.
