W.S.P.F.

WSPF: it's more than just an audio club. It's now heavily into video as well. Six to eight students are involved in the morning announcements. They each take turns every morning to bring to you, the students, news of the day. These students meet daily in their own homeroom.

To become involved in WSPF students are welcome to come out and try out in front of video cameras. These videos are then reviewed so that the best can be chosen. These tryouts are held in the spring. The contestants picked become the TV crew for the following year.
