

# Stage Crew

Working long hours and often on short notice, this service organization sees that the old phrase, "The show must go on," is carried out. Arriving at the auditorium at 2:30 and sometimes not leaving until very late at night, this group aims lights, builds sets, and does sound checks while, at the same time, trying to work quietly around the rehearsing performers on stage. Although the stage crew themselves are normally not seen during the show because they are hidden in the wings, the pit, or in 'the booth,' their work is seen and appreciated by the audience, as well as by the performers. Among the shows which the stage crew helped produce this year were the Battle of the Bands, the drama club production of '1984,' which was directed by the stage crew advisor Mr. Douglass Hooper, the Repertory Theatre production of 'Pippin,' directed by Mr. David Multer, as well as Modern Dance and the annual Miss Union County Pageant. This year's officers were President Mike Windeler, 1st Vice-President Ralph Anilo, and 2nd Vice-President Christine Tercheck.

## S.P.-F.E.T.V.

Every school morning several students report to their homeroom in the media center earlier than most, collect announcements, distribute them amongst themselves and in a few more minutes are "on the air."

These are the students whose voices float through the school bringing the student body important news. This year's staff incorporated background music and sound tracks to help the students and teachers start their day.

The announcers tried out for their position in the fall and competed with other hopefuls by auditioning in front of cameras.
