

CLASS OF 1990

The first year was the toughest!

"Obey the rules, and you'll get along just fine." That's what they tell you your "rookie" year. And you do your best to cope.

So maybe you ended up in Restricted Study, or even "Solitary" — ISS. But you learn from it. And you size up The Lifers: Who's tough, who's easy on homework, who doesn't check hall passes. You learn "The System," or you'll never make it past your Sophomore year.

It's just that simple, see?
