Finally school is done! I shall thank you all, therefore no one is to remain nameless, especially to that intriguing female that is a part of my life. Let everybody remember all the good times. Remember good old Mex, Killington, Carib, and Florida. Many thanks mom, dad, Mary, Luis, Janet and all of my other close relatives for helping me through this special time. Good Luck everyone!

To the mosquitoes, would you ever have imagined there would be children swinging in polluted playgrounds. We broke reality and insanity forever. Colorless eyes. Do the Irish jig! It's happening again! You almost hit the telephone pole lucky just a flat. The woman is the greatest gift nature has to offer man. My family I love you and will be here waiting.
