

STORMY

This year the last day of summer turned out to be three days later than expected. On Monday, September 7 a tornado ripped through Union County. Wires were torn, yards were destroyed, and power was lost for days. As a result school did not reopen until Friday, September 10.

Upper Righthand Corner: The storm got everything bent out of shape.

Lower Righthand Corner: The first days of school were uprooted by the storm.

Center left: Whose radio even worked?!?
