macho men

"I think teenagers trick-or-treating is kind of weird, even though I did it. I was home when people came to my house, and when I opened the door for some girl that I know. It was awkward...so I'd say it's pretty weird."
senior Jon Greenspan

"As long as you're having fun and maybe scaring some kids along the way, I don't see why teenagers shouldn't trick-or-treat."

"As you grow older, the thrill of trick-or-treating starts to fade away."

what a marvel!

Ready to save anyone should the need arise, these sophomores emulate their favorite superheroes. Kodan showed off her Hulk costume when she went trick-or-treating, much to the dismay of some of the adults who answered the door. "People got a little frustrated when we came to their door, complaining things like 'save the candy for the little kids,' but then again other people loved how we still had the spirit." defended Kodan.
